

Welcome to Faculty of Entrepreneurship

University of Tehran

Faculty's Mission

Faculty of Entrepreneurship's Mission is to equip students and entrepreneurs with new knowledge and skills in the field of entrepreneurship. Faculty of entrepreneurship shall seek and develop new knowledge, transfer existing knowledge and educate, as well as train young individuals with potential and talent for entrepreneurship.

Faculty's Vision

Faculty's Vision is to be the preeminent faculty for training and education of dynamic Entrepreneurs and for entrepreneurial thought and action-and known for it. We want to put the power of entrepreneurship as a force for economic and social value creation in as many hands as we can.

Faculty's Objectives

Objective  1	Strengthen graduate and professional education to enhance student learning.
Objective  2	Create a supportive and innovative learning environment to strengthen critical thinking of students and to prepare future leaders in entrepreneurship.
Objective  3	Develop curricula to assure student success in professional roles.
Objective  4	Provide facilities, equipment, and technology to support effective teaching and learning.
Objective  5	To foster smart partnerships with local and international universities that are directly involved in entrepreneurship education.

For us, entrepreneurship is the spirit of creative risk-taking and innovation that leverages university knowledge to stimulate social development and economic competitiveness

Executive Summary

Faculty of Entrepreneurship is creating an innovation ecosystem inspired with an entrepreneurial spirit. As a proactive faculty, **our vision** is to be the preeminent faculty for training and education of dynamic Entrepreneurs and for entrepreneurial thought and action-and known for it. We want to put the power of entrepreneurship as a force for economic and social value creation in as many hands as we can. We are building a movement of people and organizations who can be entrepreneurial in applying innovations to global challenges, improving life for us all.

Faculty's Entrepreneurial Foundation

Our faculty has a strong foundation of entrepreneurial programs. Students with ideas for new ventures can participate in the Student Entrepreneur Initiative, which provides funding, office space, training and mentoring for teams of students to explore their innovative ideas for enterprises or non-profit organizations. Beyond opportunities for our students, the community has access to in-depth training and one-on-one coaching through our faculty, which equips technology or science-based entrepreneurs with the skills and contacts to better succeed in the marketplace. In addition, the Spirit of our system provides education resources to help small and medium-sized businesses continuously improve business practices.

As a Faculty of Entrepreneurship we do what we promise. Our teaching methods are based on practical business with the solid theoretical background. Our professors are academics but they all have years of practice in the entrepreneurial field. We want to encourage the exchange of smart young ideas and stimulate the global network of our students. We also invite foreign students to study in Iran. Our teaching process does not start and finish in the classroom. Backed-up with contemporary technical teaching aids we are able to adapt to students' needs, connect to people. Working in small groups and having an excellent student/teacher relation, we manage to individualize learning process, search for talents, encourage the abilities of an individual and give them all the necessary knowledge and skills needed in today's global business environment.

Faculty's Core Values

Integrity

We respect and behave ethically toward each other and our external partners. We practice social and civic responsibility in the greater communities to which we belong.

Innovation

We have a long-standing commitment to an institutional culture that fosters creativity, risk-taking, continuous improvement, and an entrepreneurial spirit.

Vibrant

The learning experience of our students, the work environment for our staff, and the interactions with our communities will be vibrant and excite and engage them.

Collaboration

Our commitment to cross-disciplinary collaboration and to working closely with students defines the practices of the faculty, administration, staff and who work on our faculty.
